

WAND Support

With WAND, help is always right around the corner!

When you partner with WAND, you join a dedicated team of professionals ready to assist when you need it most.

Because we specialize in working with restaurants and other food-vending businesses, we understand your unique needs. Because we know that “Normal Business Hours” don’t always apply to you, we offer support that is available whenever you need it, 24/7/365.

No matter the issue, we can help with:

- Software support for WAND’s Digital Menu Technology Platform
- Trouble shooting, warranty questions, and technician coordination for hardware issues
- Hardware coverage through TechProtect, including replacement hardware and on-site next-business-day service for five years
- Content, design, and marketing assistance through the WAND Digital Agency

**With questions, for support,
and for service, contact us through
your preferred method:**

Call: 952-361-6250 or 800-405-8509
